Subject: Milton Roy Representation for the Carolina's

Dear Glen,

I am happy to confirm that Milton Roy has selected OEC Fluid Handling to be our newest member of the Milton Roy distributor network! Our selection was based upon various metrics. OEC's existing field sales force with its PD pump application experience, OEC's staff of dedicated inside customer service professionals and OEC Fluid Handling's overall readiness to support Milton Roy products with both sales and service were deciding factors.

Our customers in the Carolina's represent an important market for the Milton Roy Company. We are excited to have OEC Fluid Handling represent all of our metering pump products.

Welcome aboard!

Pete Brownell
Sales Manager
Engineered and Industrial Products
